

United States Department of State

Washington, D.C. 20520

14 August 1984

Dear Chuck:

All of us can take considerable satisfaction in the results of our efforts to obtain passage of the Omnibus Supplemental in the recent Congressional session.

Without the full cooperation and highest levels of professionalism which you and others in your office consistently displayed, we would not have obtained such outstanding results.

I want you and your colleagues to know that those of us in Legislative Affairs at the State Department who worked this issue with you greatly appreciate your excellent work and cooperative spirit. We look forward to working closely with you again as we seek to secure passage of the Jackson Plan in the Senate next month.

Sincerely,
